

For the following questions, you will need to use the online Merriam-Webster dictionary (or the print edition).

PART A. For each Latin or Greek word (viz., these words are currently part of the English vocabulary, but are associated with either Greek or Latin), identify its English cognate.

1. cerebral (Latin)

Horn

2. caution (Latin)

Hear

3. base (Greek)

Come

4. garrulous (Latin)

Care

5. noctambulist (Latin)
nyctalopia (Greek)

Night

6. exhort (Latin)
charisma (Greek)

Yearn

Part B. For each of the following words, identify the language that it is associated with. Also state, if possible, what features of the word help you to identify the language it is associated with even before you look it up.

1. chrysanthemum

Greek
anthemon

2. knight

Old High German
kneht youth

3. expletive

4. anaerobic

5. illegitimate

Latin
illegalis

6. definition

Latin
define

7. bowl
