

- 1345-1425** “Area-wide management of codling moth and the promises of chemical ecology: Canadian innovation in action” Gary Judd, Research Scientist, Entomologist, Agriculture and Agri-Food Canada, Pacific Agri-Food Research Centre, Summerland, BC
- 1425-1445** “Pesticides used today in structural pest control: what we spray and what people say” Lucian Mircioiu, Bioconcept Pest Management Ltd.
- 1445-1505** “Effect of temperature on insecticide efficacy” Wim Van Herk, AAFC, Pacific Agri-Food Research Centre, Agassiz, BC
- 1505-1530** Refreshments
- 1530-1630** HR MacCarthy Lecture: “Green chemistry approaches to pest management” Presented by Dr. Joel Coates, Charles H.F. Curtiss Distinguished Professor, Entomology & Toxicology, Iowa State University

Management Association  
of British Columbia**

**2013 Symposium**

***The Changing Face of  
Pesticides in Our Society***

In Conjunction with

**The HR MacCarthy Lecture**

25 February 2013

**Simon Fraser University  
IRMACS Centre**

## Morning Schedule

- 0845-0915 Registration**, coffee, tea, juice and pastries
- 0915-0925 Welcome**, Tracy Hueppelsheuser, Entomologist, BC Ministry of Agriculture, President PPMABC
- 0925-1030 Student Presentation Competition**, Introduced by Jim Matteoni, Instructor, Kwantlen Polytechnic University, and Extension Associate, Institute for Sustainable Horticulture, Past President PPMABC
- 0930-0945 “Re-slicing the pie: Invasive species and community resources”** Tanya Stemberger, M. Boers, and B. Roitberg. Simon Fraser University
- 0945-1000 “Cool climate and climbing cutworm: Biological control of a grape pest”** Scott Johnson<sup>1</sup>, T. Lowery<sup>2</sup>, J. Cossentine<sup>2</sup>, and J. Cory<sup>1</sup>. <sup>1</sup>Simon Fraser University, and <sup>2</sup>Agriculture and Agri-Food Canada
- 1000-1015 “Are fungi and parasitoids compatible for controlling aphids in greenhouses?”** Yasmine Norouzi<sup>1</sup>, J. Cory<sup>1</sup>, and D. Gillespie<sup>2</sup>. <sup>1</sup>Simon Fraser University, and <sup>2</sup>Agriculture and Agri-Food Canada
- 1015-1030 “The ability of *Bembidion lampros*, a small carabid, to pass through mesh exclusion fencing”** Erin Adams<sup>1</sup>, B. Roitberg<sup>1</sup>, and R. Vernon. <sup>1</sup>Simon Fraser University, and <sup>2</sup>Agriculture and Agri-Food Canada
- 1030-1050 Refreshments**

## Symposium

- 1050-1110 “The Changing Face of Pesticide Application”** Madeline Waring, Pesticide Specialist, BC Ministry of Agriculture
- 1110-1130 “Impact of insecticides on pests and biocontrol agents: Lessons from canola and cotton”** R.M. Sarfraz<sup>1</sup>, J.S. Cory<sup>2</sup>, and J.H. Myers<sup>1</sup>. <sup>1</sup>University of British Columbia, and <sup>2</sup>Simon Fraser University
- 1130-1150 “Agricultural Pesticides: a decade of changes”** Caroline Bedard. Pesticide Minor Use Coordinator/Regulatory Specialist, BC Ministry of Agriculture
- 1150-1210 “Survival of cabbage loopers during winters: Potential carryover of insecticide resistance?”** Rana M. Sarfraz, V.M. Cervantes, and J.H. Myers. Department of Zoology, University of British Columbia
- 1210-1300 Lunch provided**
- 1300-1330 AGM, PPMABC**

## Afternoon Schedule

- 1330-1335 Student Award Presentation** Presented by Jim Matteoni, Past President PPMABC
- 1335-1340 Excellence in Pest Management in British Columbia Award** Presented to Art Guité by John Borden, Chief Science Officer, Contech Inc.
- 1340-1345 Lifetime Achievement Award Presentation.** Presented to Gary Judd by Tracy Hueppelsheuser, President PPMABC
