Dianne Edmonds uses the Blue Mountain Park App to plan out her time at the Park depending on whether she's taking her grandchildren to the park or taking a peaceful stroll with her dog.

With her grandchildren, Dianne uses the Day planner feature on the app to plan out a schedule of activities she wishes to do throughout the day. For example, she can first take them to the waterpark, then go to the concession stand to buy lunch, and finally end the day at the playground, following the continuous path suggested by the app.
