
GROUP 7 OR GROUP F

[Moving me Down the Hwy.:](#) We can move that. ([C-7G.Pdf](#))

How do these companies differ in how they do business?

That is:

How does one company differ from another?

How does everyone get paid?

Who are their customers?

As a customer, which would you find the most attractive?

Who are their suppliers?

As a supplier working this gig, which one would be attractive?

Why don't these companies just hire these folks?

Would that make sense?

<u>Dolly</u>	This service uses folks that have vehicles for moving, or movers for heavy lifting if they don't. Movers can choose the jobs they want and can earn on average \$30 / hour or higher. Price is set up front & movers get paid weekly.
<u>Bellhops</u>	With Bellhops, people can start earning money by providing friendly local moving services. Bellhops are professional and provide exceptional service while making moving day less stressful for customers.
<u>U-ship</u>	If one has some really strangely shaped objects to ship, U-ship will match shippers with those who have to get there stuff somewhere else.
